

Week14

本周是使用 **leo** 更改 **login**

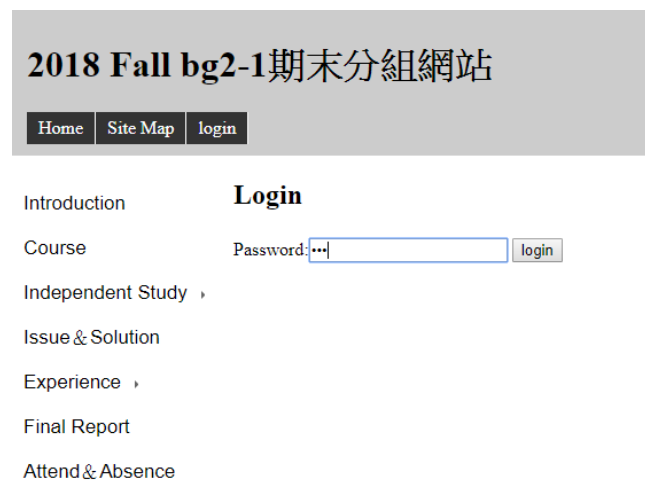

目標輸入 **bg2** 之後會跳出 **hello world**

首先先找出 **check login**

```
elif password == "bg2":  
    return redirect('helloworld')  
return redirect('/')  
  
@app.route('/helloworld')  
def show_helloworld():  
    return "<p>hello world</p>"  
  
*****
```

加入上述的程式，如果在 **password** 打 **bg2** 的話

系統會自動跳出另一頁 **helloworld** 的字樣

The screenshot shows a web application interface. At the top, there is a header bar with the text "2018 Fall bg2-1期末分組網站" and three navigation links: "Home", "Site Map", and "login". Below the header, there is a sidebar menu on the left with the following items: "Introduction", "Course", "Independent Study", "Issue & Solution", "Experience", "Final Report", and "Attend & Absence". The main content area on the right is titled "Login" and contains a form with a "Password:" label, a text input field, and a "login" button.

至期末分組網站輸入 **bg2**

如果有彈跳出以下視窗代表成功
